

LAGOON BANK PLC (FICTIONAL) - INTERNAL MEMO

Subject: Interim guidance on card testing

Date: 2026-08-20

Fraud Operations has observed bursts of small online card payments with many declined authorisations. Analysts should treat twenty or more card-not-present attempts within one hour as a card testing indicator and review the card for compromise. Blocking the card requires approval by an authorised Fraud Operations officer.

This memo is a synthetic document for FIRA development.
